SWIPE <<<

No spreadsheets | No firefighting | Just pipeline focus.

PROBLEM

Right now, sales leaders lose hours reconciling CRM, ERP, and BI dashboards. Every quarter, that wasted time means lost revenue.

THE ROOT CAUSE?

– Data stuck in silos.
– Metrics that don’t line up.
– Teams forced to double-check instead of closing deals.

THE USUAL FIX DOESN'T FIX IT.

- More analysts don't mean faster answers.
- More dashboards don't bring clarity.
- Complexity only multiplies.

THE REAL SHIFT:

Unify every GTM metric into one live source of truth.

Instant answers | Shared visibility | No delays
